PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience managing a small cafe, including daily operations, purchasing, inventory, and customer service. Private tutor since 2018, with additional experience coordinating volunteers in flood relief work. Efficient at managing time and multiple tasks, with several completed web and app projects. Seeking an entry-level HR, Administration, or Operations role with the opportunity to learn, take on new challenges, and grow while contributing to the team.

CORE COMPETENCIES

Operations & Administration: Daily Operations, Office Administration, Documentation, Data Entry, Reporting

HR & People: Staff Coordination, Scheduling, Mentoring, Communication, Teamwork

Procurement & Customer: Inventory Management, Purchasing, Stock Tracking, Customer Service

Professional: Problem Solving, Time Management, Multitasking, Adaptability

PROFESSIONAL EXPERIENCE

Small Cafe Operations Manager **March 2024 – Present**
Self-Managed Business, Bangladesh

- Managed daily operations including sales, inventory, purchasing, and essential supplies.
- Track stock levels and reorder before items run out.
- Deal directly with customers, answering questions and fixing problems on the spot.
- Plan and coordinate daily tasks so service keeps running without delays.
- Handle operational issues as they come up, from supply gaps to busy-hour pressure.

Private Tutor **April 2018 – Present**
Independent

- Teach students one-to-one and adjust my approach to how each student learns.
- Plan lessons, set schedules, and keep in regular contact with students.
- Break down difficult topics into simple steps and track progress over time.

Flood Relief Volunteer **August 2024**
Community Volunteer Experience

- Distributed food and essential supplies to families affected by the flood.
- Worked with other volunteers to organize distribution and cover what was needed on the ground.
- Responded to practical on-site needs and worked effectively in a team under time-sensitive conditions.

SOFTWARE DEVELOPMENT PROJECTS

Web and app projects built during my studies. More at repositories

- **Inventory Management System:** Django application for managing products, stock, and transactions.
- **SweepSwap:** E-commerce platform built with Laravel (PHP).
- **FitHub:** Gym management and e-commerce application built with Laravel.
- **Tactix AI Dashboard:** Dashboard project built with Python.
- **Quran Halaqa:** Mobile app built with Flutter.

EDUCATION

Bachelor of Science in Computer Science and Engineering **2022 – 2026**
BRAC University, Bangladesh
